#### **Independent Auditor's Report**

Regents of the University of Oklahoma Rogers State University – KRSU-Television Norman, Oklahoma

#### **Report on the Audit of the Financial Statements**

#### Opinion

We have audited the financial statements of Rogers State University – KRSU-Television (the Station) as of and for the years ended June 30, 2023 and 2022 and the related notes to the financial statements, which collectively comprise the Station's basic financial statements, as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Station as of June 30, 2023 and 2022 and the changes in financial position and its cash flows for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial statement audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the Station and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Emphasis of Matter**

As discussed in *Note 1*, the accompanying financial statements of the Station are intended to present the financial position, changes in financial position, and cash flows of only the activities of the Station. They do not purport to, and do not, present fairly the financial position of Rogers State University as of June 30, 2023 and 2022 and the changes in its financial position or its cash flows for the years then ended, in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Regents of the University of Oklahoma Rogers State University – KRSU-Television Page 2

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Station's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant
  accounting estimates made by management, as well as evaluate the overall presentation of the
  financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that management's discussion and analysis be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Regents of the University of Oklahoma Rogers State University – KRSU-Television Page 3

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 20, 2023 on our consideration of the Station's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Station's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Station's internal control over financial reporting and compliance.

FORVIS, LLP

Tulsa, Oklahoma December 20, 2023

# Rogers State University – KRSU-Television Management's Discussion and Analysis Years Ended June 30, 2023 and 2022

#### Introduction

KRSU-Television (the Station) is a full-service public television station licensed to Rogers State University (the University) serving northeast Oklahoma and parts of southeast Kansas and northwest Arkansas. Its broadcast format is primarily educational, informational, and entertainment-based programs, with content provided by station-produced documentaries and local interest programs, independently produced programming, as well as programs acquired from American Public Television Network, National Educational Television Association, and Public Broadcasting Service (PBS).

The Station's signal originates from studios located on the campus of the University and uses call letters KRSU-TV.

#### Overview of the Financial Statements and Financial Analysis

Within this section of the Station's annual financial report, the Station's management provides a narrative discussion and analysis of the financial activities of the Station for the fiscal years ended June 30, 2023 and 2022. The Station's financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section. The 2021 financial statement amounts are included for comparative purposes.

#### Financial Analysis of the Station as a Whole

The Station's total assets exceeded liabilities by \$3,842,507 for the June 30, 2023 fiscal year. This compares to fiscal years 2022 and 2021 when assets exceeded liabilities by \$3,439,029 and \$3,094,857, respectively.

Capital assets, which have no related debt, including property and equipment, net of accumulated depreciation, were \$996,817, a decrease of 1.7%, in fiscal year 2023 compared to \$1,014,157, a decrease of 9.9%, in fiscal year 2022 compared to \$1,125,857 in fiscal year 2021. The net change in capital assets during fiscal year 2023 represents equipment acquisitions of \$142,030 and depreciation expense of \$159,370.

The unrestricted component of net position totaled \$2,746,298 representing the portion available to maintain the Station's continuing obligations to viewership and creditors beyond fiscal year 2023. This is an increase of 20.4% over fiscal year 2022, where unrestricted net position totaled \$2,281,872, and an increase of 19.8% over fiscal year 2021, where unrestricted net position totaled \$1,905,069.

As of June 30, 2023, total liabilities for the Station were 33.5% or \$42,240 less than fiscal year ended June 30, 2022, and total liabilities as of June 30, 2022 were 50.0% or \$126,295 less than fiscal year ended June 30, 2021.

# Statement of Net Position and Statement of Revenues, Expenses, and Changes in Net Position

The statement of net position and the statement of revenues, expenses, and changes in net position report the Station's net position and how it has changed. Net position is the difference between assets plus deferred outflows and liabilities plus deferred inflows. This is one way to measure the Station's financial health or position. Over time, the increases or decreases in the Station's net position are an indicator of whether its financial health is improving or not.

These statements include all assets, deferred outflows, liabilities, and deferred inflows using the accrual basis of accounting, which is consistent with the accounting method used by private-sector institutions. All of the current year's revenues and expenses are recognized when earned or incurred, regardless of when cash is received or paid.

The following tables summarize the Station's assets, liabilities, and net position as of June 30 and the Station's revenues, expenses, and changes in net position for the fiscal years ended June 30:

	2023	2022	2021
Assets			
Current assets	\$ 2,929,629	\$ 2,551,051	\$ 2,196,474
Noncurrent assets	996,817	1,014,157	1,150,857
		· · · · ·	<u>, , , , , , , , , , , , , , , , , </u>
Total assets	3,926,446	3,565,208	3,347,331
Liabilities			
Current liabilities	83,939	126,179	109,664
Noncurrent liabilities			142,810
Total liabilities	83,939	126,179	252,474
Total Informets		120,179	252,474
Net Position

Unrestricted	2,746,298	2,281,872	1,905,069
Total net position	\$ 3,842,507	\$ 3,439,029	\$ 3,094,857
	2023	2022	2021
Operating revenues	\$ 1,244,598	\$ 1,141,187	\$ 1,151,100
Operating expenses	1,862,071	1,679,341	1,596,306
Operating loss	(617,473)	(538,154)	(445,206)
Nonoperating revenues and capital grants	1,020,951	882,326	1,080,257
Change in net position	\$ 403,478	\$ 344,172	\$ 635,051

#### **Operating and Nonoperating Revenues**

The following table details the operating revenues and nonoperating revenues for the Station for the fiscal years ended June 30:

	2023	2022	2021
Operating Revenues			
CPB grants	\$ 755,752	\$ 735,377	\$ 698,014
In-kind contributions	6,903	6,903	6,903
Memberships	100,185	76,743	71,961
Underwriting	320,716	314,040	235,243
Continuing education	2,605	180	2,825
Other/private grants	58,437	7,944	136,154
Total operating revenues	1,244,598	1,141,187	1,151,100
Nonoperating Revenues and Capital Grants			
General university appropriations	303,695	309,068	327,556
CPB Stabilization Grant	-	-	460,760
Donated facilities and indirect administrative support	306,724	275,151	254,467
Capital grants	-	100,000	6,891
On-behalf payments for OTRS	14,423	14,423	12,337
Interest income	41,805	20,874	18,246
Other grants	354,304	20,000	-
PPP loan forgiveness		142,810	
Total nonoperating revenues and capital			
grants	1,020,951	882,326	1,080,257
Total revenues	\$ 2,265,549	\$ 2,023,513	\$ 2,231,357

The Station relies on three main sources of income: an annual allocation and related in-kind support from the University and Rogers State University Foundation, Inc. (the Foundation), which is categorized as nonoperating revenue; operating revenue, which includes an annual grant from the Corporation for Public Broadcasting (CPB); and private donations, both cash and in-kind. Private donations are used for operating, capital expenses, and special projects. Special projects often may include grants and contracts.

The table above summarizes the Station's operating revenues for the fiscal years ended June 30, 2023, 2022, and 2021. Total operating revenue of \$1,244,598 in fiscal year 2023 increased \$103,411 or 9.1% when compared to 2022, and total operating revenue of \$1,141,187 in fiscal year 2022 decreased \$9,913 or 0.9% when compared to 2021.

In-kind contributions relate to the occupancy cost incurred by the Foundation for the broadcast tower by the Foundation, from which the television signal is transmitted. The current revenue represents the annual depreciation by the Foundation, whereas, prior to fiscal year 2019, in-kind contributions represented the market value of the tower rental contributed by the Foundation.

Funding from memberships and pledge drives totaled \$100,185, an increase of \$23,442 or 30.5% from fiscal year 2022 revenues of \$76,743. This was an increase of \$4,782 or 6.6% from fiscal year 2021 revenues of \$71,961.

Underwriting and production revenues associated with local productions generated \$320,716, an increase of \$6,676 or 2.1% from fiscal year 2022 revenues of \$314,040, an increase of \$78,797 or 33.5% from fiscal year 2021 revenues of \$235,243. Increases are attributable to an increase in production activity.

The Station's nonoperating revenues reflected above include other grants and university appropriations and donated facilities totaling \$1,020,951, which include personnel costs and facility support.

#### **Operating Expenses**

The following table details the operating expenses for the Station for the fiscal years ended June 30:

	2023	2022	2021
Program Services			
Programming and production	\$ 435,558	\$ 448,198	\$ 526,647
Broadcasting	603,042	433,434	415,843
Program information	103,297	79,033	19,428
Total program services	1,141,897	960,665	961,918
Support Services			
Fundraising and membership	22,077	31,123	19,893
Underwriting	6,144	6,531	21,714
Management and general	691,953	681,022	592,781
Total support services	720,174	718,676	634,388
Total expenses	\$ 1,862,071	\$ 1,679,341	\$ 1,596,306

Program services expenses, which include programming and production, broadcasting, and program information activities, increased by \$181,232 or 18.9% from fiscal year 2022 and decreased by \$1,253 or 0.1% from fiscal year 2021 due to fluctuations in levels of activity related to program acquisitions and local production projects.

Support services expenses for fiscal year 2023 increased by \$1,498 or 0.2% from fiscal year 2022 and increased by \$84,288 or 13.3% from fiscal year 2021 as a result of increases associated with development of corporate underwriting support and increased production activity.

#### **Capital Assets**

At June 30, 2023, the Station had \$996,817 in capital assets, net of accumulated depreciation, compared to 2022 when the Station had \$1,014,157 in capital assets, net of accumulated depreciation. At the end of fiscal year 2021, the Station had \$1,125,857 in capital assets, net of accumulated depreciation. Depreciation for fiscal years 2023, 2022, and 2021 was \$159,370, \$134,228, and \$145,102, respectively. See *Note 4* to the financial statements for additional details.

#### Debt

During the fiscal year 2021, the Station received a PPP loan in the amount of \$142,810. This loan was forgiven in fiscal year 2022 on October 1, 2021. The revenue for forgiveness is recorded as nonoperating revenue.

#### Economic Outlook

The Station's financial position continues to strengthen. Institutional funding remains stable from the University and the Foundation. Underwriting and production contracts that are related to station outreach initiatives are also stable; however, grants have increased.

Funding to the CPB and the pass-through of those funds to the Station are subject to funding decisions of the U.S. Congress. Funding for the fiscal year 2024 Community Service Grant is estimated to be stable, with funding beyond 2024 remaining uncertain.

As the Station continues to proactively reach out to its membership base and focuses on attracting new corporate partnerships for underwriting and grants, the Station will accomplish its strategic goals and fulfill its mission to provide viewers throughout northeast Oklahoma, southeast Kansas, and northwest Arkansas quality television programming.

#### Note 1: Nature of Operations and Summary of Significant Accounting Policies

#### Nature of Operations

Rogers State University – KRSU-Television (the Station) is a public telecommunications entity owned and operated by Rogers State University (the University). The Station conducts operations from the University's campus located in Claremore, Oklahoma. The financial activities of the Station are accounted for by the University. The Station does not maintain a separate set of self-balancing financial records. The financial statements of the Station are prepared from the financial records maintained by the University.

#### Financial Statement Presentation

The Station's financial statements are presented in accordance with the requirements of Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis – for State and Local Governments*, and GASB Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities*. The Station is required to present a statement of net position classified between current and noncurrent assets and liabilities and deferred outflows and inflows; a statement of revenues, expenses, and changes in net position with separate presentation for operating and nonoperating revenues and expenses; and a statement of cash flows using the direct method.

The Station is a department of the University. These financial statements do not purport to, and do not, present fairly the financial position of the University as of June 30, 2023 and 2022, the changes in its financial position, or its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis of Accounting**

The accompanying financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned and expenses are recorded when an obligation has been incurred.

#### **Revenue Recognition**

Grant funds are reported as revenue when eligibility requirements have been met. Grant funds that have been received but have not met eligibility requirements are reported as unearned revenue. Revenue from underwriting is earned when the airplay has been performed and revenue from memberships is reported as revenue when earned. Contributions from special events are reported as operating revenue when earned.

#### Cash and Cash Equivalents

The Station considers all liquid investments with an original maturity of three months or less to be cash equivalents.

#### Accounts Receivable

Accounts receivable consist of expenses accrued for payroll and benefits reimbursable from the University, underwriting receivables, interest receivable, and a grant receivable. All receivables are due in one year or less except for the grant receivable, which is due in \$25,000 increments through 2023. An allowance for accounts receivable is not recorded since management believes all accounts are fully collectible. The final installment was paid in fiscal year 2023.

#### **Capital Assets**

The Station follows the practice of capitalizing all major expenditures for land, buildings and tower, equipment, and leasehold improvements greater than \$5,000. Such assets are recorded at cost or, if acquired by gift, at acquisition value at date of receipt. Depreciation is provided over the estimated useful lives of the assets on the straight-line method, ranging from 5 to 31 years. Routine repairs and maintenance are charged to operating expenses in the year in which the expense was incurred.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures; accordingly, actual results could differ from those estimates.

#### **Compensated Absences**

Employee compensated absences are accrued when earned. The obligation and expenditure incurred during the year are recorded as accrued compensated absences in the accompanying statements of net position and as an operating expense in the accompanying statements of revenues, expenses, and changes in net position.

#### **Unearned Revenue**

Unearned revenue at June 30, 2023 and 2022 consisted of \$18,750 and \$14,583, respectively, in underwriting revenues related to amounts received by the Station that have not been earned.

#### Income Taxes

As a state institution of higher education, the income of the University is generally exempt from federal and state income taxes under Section 115(1) of the Internal Revenue Code, as amended. However, income generated from activities unrelated to the University's exempt purpose is subject to income taxes under Internal Revenue Code Section 511(a)(2)(B). Such amounts have historically been insignificant. As a department of the University, the Station is also exempt from income taxes.

#### Programming

Licensed program materials from National Public Radio (NPR) are expensed when purchased.

#### **Donated Facilities and Indirect Administrative Support**

Donated facilities consist of certain premises located in and owned by the University that are occupied by the Station without charge. The allocable portion of the premises is reported as both a revenue and an expense in the period when the premises are used.

Indirect administrative support includes allocable portions of institutional support and physical plant operations. The amount of university expenditures attributable to the Station is allocated based upon suggested formats of the Corporation for Public Broadcasting (CPB). For the years ended June 30, 2023 and 2022, the allocation methods were as follows:

• Institutional Support and Physical Plant Operations – These costs are allocated based upon the licensee's indirect cost rate (the licensee's indirect costs as a percentage of direct costs) and the Station's total operating expenses less depreciation and amortization, in-kind contributions reported as expenses, indirect administrative support, expenses for non-broadcast activities and unrelated business income tax, and expenses not supported by the licensee.

#### **In-Kind Contributions**

In-kind revenues include the annual depreciation value of tower, as described in *Note 5*. Since fiscal year 1995, CPB determined that it would not allow in-kind contributions for programs, compact discs, and volunteer services to be included for grant calculation purposes. Therefore, CPB and NPR have not furnished values for these in-kind contributions. These amounts have not been included in the accompanying financial statements; however, the Station considers these in-kind contributions to be an integral part of the operations.

#### **Operating Revenues and Expenses**

The Station distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the Station's principal ongoing operations. The principal operating revenues of the Station are grants for public broadcasting entities, including grants to enhance the quality of programming and expand the scope of public broadcasting services, as well as revenues received from underwriting and memberships and contributions from donors.

Operating expenses include cost of services, payments to suppliers and employees, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

#### **Net Position**

The Station's net position is classified as follows:

**Net Investment in Capital Assets** – This represents the Station's total investment in capital assets, net of accumulated depreciation and related deferred outflows of resources, reduced by outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets. The Station had no such debt at June 30, 2023 or 2022.

**Restricted Net Position – Expendable** – The restricted – expendable net position includes resources in which the Station is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties. As of June 30, 2023 and 2022, \$99,392 and \$143,000, respectively, were considered to be restricted – expendable.

**Unrestricted Net Position** – Unrestricted net position represents resources derived from the ongoing operations of the Station. These resources may be used at the discretion of the governing board to meet current expenses for any purpose.

It is the Station's policy to first use restricted net position prior to the use of unrestricted net position when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

#### **Deferred Outflows of Resources**

Deferred outflows are the consumption of net assets by the Station that is applicable to a future reporting period. At June 30, 2023 and 2022, the Station had no deferred outflows of resources.

#### **Deferred Inflows of Resources**

Deferred inflows are the acquisition of net assets by the Station that is applicable to a future reporting period. At June 30, 2023 and 2022, the Station had no deferred inflows of resources.

#### Revision

A revision has been made to 2022 restricted – expendable and unrestricted net position to include \$18,000 of restricted funds held by the Foundation in restricted – expendable net position at June 30, 2022. The revision did not have a significant impact on the financial statements and had no impact on previously reported statements of revenues, expenses, and changes in net position or statements of cash flows.

#### Note 2: Deposits and Investments

The University acts as depository for funds received from the CPB and other sources for the benefit of the Station. These grant monies are pooled with other university funds for investment purposes and are invested in the State Treasurer's Cash Management System.

The State Treasurer requires that all state funds are either insured by Federal Deposit Insurance, collateralized by securities held by the cognizant Federal Reserve Bank, or invested in U.S. government obligations. The University's deposits with the State Treasurer are pooled with funds of other state agencies and then, in accordance with statutory limitations, placed in financial institutions or invested, as the State Treasurer may determine, in the State's name.

The University requires that balances on deposit with financial institutions be insured by Federal Deposit Insurance or collateralized by securities held by the cognizant Federal Reserve Bank in the University's name.

#### Note 3: Funds Held for the Benefit of the Station

Funds held for the benefit of the Station are pooled within the net assets of Rogers State University Foundation, Inc. (the Foundation). The Foundation is a private foundation organized for the purpose of receiving and administering gifts intended for the benefit of the University. As of June 30, 2023 and 2022, the Foundation maintained cash balances on behalf of the Station totaling \$46,972 and \$436,988, respectively.

#### Note 4: Capital Assets

A summary of the changes in capital assets for the years ended June 30 is as follows:

	Beginning Balance	Additions Retirements		Transfers	Ending Balance	
<b>2023</b> Other capital assets						
Building and tower	\$ 897,340	\$ -	\$-	\$ -	\$ 897,340	
Leasehold improvements	150,371	-	-	-	150,371

Capital assets, net	\$	1,125,857	\$	(111,700)	\$	-	\$	_	\$ 1,014,157

#### Note 5: Related-Party Transactions

The Station occupies building and tower space from the Foundation without cost. The annual depreciation value of the building and tower space donated by the Foundation was approximately \$6,900 and \$6,900 for the years ended June 30, 2023 and 2022, respectively, and is included as in-kind contributions and in-kind tower space expense in the accompanying statements of revenues, expenses, and changes in net position.

The Station received facility and indirect administrative support from the University of \$306,724 and \$275,151 for 2023 and 2022, respectively. The Station also received direct appropriations from the University for general operations of \$303,695 and \$309,068 in 2023 and 2022, respectively. Amounts due from the University were \$9,644 and \$45,695 as of June 30, 2023 and 2022, respectively, and recorded in accounts receivable.

#### Note 6: Retirement Programs

The University's academic and nonacademic personnel are covered by various retirement plans depending on job classification. The plans available to university personnel include:

#### Defined Benefit Plan

The Station, through the University, currently provides a pension plan to its employees. The plan available to university personnel is the Oklahoma Teachers' Retirement System (OTRS), which is a defined benefit plan offered to all eligible faculty and staff.

The liability has not been recorded at the department level of the Station as this liability does not represent a direct liability of the Station. Only the estimated expenses associated with

contributions made during the year by the Station and the State on behalf of the University are recognized as expense.

#### **Plan Description**

The OTRS is a cost-sharing multiple-employer defined benefit pension plan sponsored by the state of Oklahoma. The OTRS provides defined retirement benefits based on members' final compensation, age, and term of service. In addition, the retirement program provides for benefits upon disability and to survivors upon the death of eligible members. The benefit provisions are established and may be amended by the legislature of the State of Oklahoma. Title 70, Sections 17-101 through 17-116-9, as amended, of the Oklahoma Statutes define all retirement benefits. The OTRS does not provide for a cost-of-living adjustment. The OTRS issues a publicly available financial report that includes financial statements and supplementary information for the OTRS. That annual report may be obtained by writing to the OTRS, P.O. Box 53524, Oklahoma City, OK 73152, by calling 405.521.2387, or at the OTRS website at www.ok.gov/TRS/.

#### **Defined Benefit Plan Funding**

The University is required to contribute a fixed percentage of annual compensation on behalf of active members. The employer contribution rate, as determined by state statute, was 8.55% for the fiscal years ended June 30, 2023 and 2022. Employees' contributions are also determined by state statute. For all employees, the contribution rate was 7% of covered salaries and fringe benefits in 2023 and 2022. The University makes all contributions on behalf of the employees.

The University's contributions to the OTRS for the Station's employees for the years ended June 30, 2023 and 2022 were approximately \$100,000 and \$102,000, respectively, equal to the required contributions for each year. These contributions included the University's statutory contribution and the employee's contribution paid directly by the University.

The State of Oklahoma is also required to contribute to the OTRS on behalf of participating employers. For 2023 and 2022, the State of Oklahoma contributed 5.25% of state revenues from sales and use taxes and individual income taxes to the OTRS on behalf of participating employers. The University has estimated the amounts contributed to the OTRS by the State of Oklahoma on its behalf by multiplying the ratio of the Station's covered salaries to total covered salaries for the OTRS for the year by the applicable percentage of taxes collected during the year.

For the years ended June 30, 2023 and 2022, the total amount contributed to the OTRS by the State of Oklahoma on behalf of the Station was approximately \$14,400 and \$14,400, respectively. These on-behalf payments have been recorded as nonoperating revenues and operating expenses in the accompanying statements of revenues, expenses, and changes in net position.

#### **Defined Contribution Plan**

#### **Plan Description**

The plan is a Section 401(a) defined contribution plan that became effective January 1, 2015 for certain FLSA nonexempt employees. The purpose of the plan is to provide retirement benefits for the participants and to distribute the funds accumulated to the beneficiaries of the eligible participants.

All nonexempt employees hired after the effective date are allowed a one-time election between participation in the OTRS or the defined contribution plan.

#### **Funding Policy**

The required contribution rate is 9.0% of pensionable compensation. The University contributes the required amounts for participating members. The University's contributions for the years ended June 30, 2023 and 2022 attributable to Station employees were approximately \$8,700 and \$8,500, respectively.

#### Note 7: Other Postemployment Benefits

The University's retiree insurance plan is considered a single-employer defined benefit plan and does not issue a stand-alone financial report. The University has the authority to establish and amend the benefit provisions offered to retirees.

The University's plan is funded on a pay-as-you-go basis. The funding policy may be amended by the Regents of the University of Oklahoma. For the years ended June 30, 2023 and 2022, the University made benefit payments of approximately \$54,000 and \$89,000, respectively, for current retirees.

The University recognized a net OPEB liability (asset) of approximately \$(13,000) and \$(35,000) as of June 30, 2023 and 2022, respectively. The liability (asset) has not been recorded at the department level of the Station as this liability (asset) does not represent a direct liability (asset) of the Station. Only the estimated expenses associated with contributions made during the year by the Station are recognized as expense.

#### Note 8: Functional Expenses Classification

The Station's operating expenses by functional classification were as follows for the years ended June 30:

	2023	2022		
Program services				
Programming and production	\$ 435,558	\$ 448,198		
Broadcasting	603,042	433,434		
Program information	103,297	79,033		
Total program services	1,141,897	960,665		
Support services				
Fundraising and membership	22,077	31,123		
Underwriting	6,144	6,531		
Management and general	691,953	681,022		
Total support services	720,174	718,676		
Total	\$ 1,862,071	\$ 1,679,341		

#### Note 9: Grants

The CPB is a private, nonprofit, grant-making organization responsible for funding more than 1,000 television and radio stations. The CPB distributes annual Community Service Grants (CSG) to qualifying public telecommunications entities. CSGs are used to augment the financial resources of public broadcasting stations and, thereby, to enhance the quality of programming and expand the scope of public broadcasting services. Each CSG may be expended over one or two federal fiscal years as described in the *Communications Act*, 47 United States Code Annotated Section 396(k)(7), (1983) Supplement. In any event, each grant must be expended within two years of the initial grant authorization.

According to the *Communications Act*, funds may be used at the discretion of recipients. The Station uses these funds for the acquisition of programming. The grants may be used to sustain activities begun with CSGs awarded in prior years.

Certain guidelines must be satisfied in connection with application for and use of the CSGs to maintain eligibility and meet compliance requirements. These guidelines pertain to the use of CSG funds, record-keeping, audits, financial reporting, and licensee status with the Federal Communications Commission. Management believes these are routine requirements and do not provide any restrictions on the grants.

For the year ended June 30, 2023, the Station received \$755,752 and expended \$724,611 in grant revenue in relation to CSGs. For the year ended June 30, 2022, the Station received \$735,377 and expended \$686,499 in grant revenue in relation to CSGs.

#### Note 10: Risk Management

The University is exposed to various risks of loss from torts; theft of, damage to, and destruction of assets; business interruptions; errors and/or omission; employee injuries and/or illnesses; natural disasters; and employee health, life, and accident benefits. Through the University, commercial insurance coverage is purchased for claims arising from such matters other than torts, property, and workers' compensation. Settled claims have not exceeded this commercial coverage in any of the three preceding years.

The University, along with other state agencies and political subdivisions, participates in the State of Oklahoma Risk Management Program and Comp Source Oklahoma, public entity risk pools (the Pools) currently operating as a common risk management and insurance program for its members. The University pays annual premiums to the Pools for its tort, property, and liability insurance coverage. The Pools' governing agreement specifies that the Pools will be self-sustaining through member premiums and will reinsure through commercial carriers for claims in excess of specified stop-loss amounts.

The Station participates in the insurance programs described above by virtue of it being a department of the University. The University does not separately allocate any of its liabilities to the Station. Accordingly, no portion of these liabilities are reflected in the Station's financial statements.

#### Note 11: Paycheck Protection Program (PPP) Loan

The *Coronavirus Aid, Relief, and Economic Security Act* (the CARES Act) and other subsequent legislation also provides a Small Business Administration (SBA) loan designed to provide a direct incentive for small businesses to keep their workers on the payroll. The PPP loans will be forgiven if all employee retention criteria are met and the funds are used for eligible expense. The Station received a PPP loan of \$142,810 in April 2021. Interest accrued at a fixed rate of 1% up to the point forgiveness was granted. The Station accounted for the PPP loan in accordance with GASB Statement No. 62.

In October 2021, the Station received full forgiveness from the SBA, extinguishing the debt in the full amount of \$142,810 plus associated accrued interest. A gain on extinguishment of the PPP loan was recognized as nonoperating income for the year ended June 30, 2022.

	Beginning Balance		Additions		Reductions		Ending Balance		Current Portion	
<b>2022</b> PPP loan	\$	142,810	\$	-	\$	(142,810)	\$	-	\$	-

#### Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

#### **Independent Auditor's Report**

Regents of the University of Oklahoma Rogers State University – KRSU-Television Norman, Oklahoma

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of Rogers State University – KRSU-Television (the Station), which comprise the Station's statement of net position as of June 30, 2023 and the related statements of revenues, expenses, and changes in net position and cash flows for the year then ended and the related notes to the financial statements, and have issued our report thereon dated December 20, 2023, which contained an "Emphasis of Matter" paragraph regarding the reporting entity.

#### Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Station's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Station's internal control. Accordingly, we do not express an opinion on the effectiveness of the Station's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Regents of the University of Oklahoma Rogers State University – KRSU-Television

#### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Station's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
